**Mission Statement**

Established in March 1996, SCEDA provides community-based leadership and planning for economic growth and development in Prince George's County, with a focus on the southern part of the county. We are a major stakeholder and an organization of record on issues having an economic impact on the quality of life of our community. These include business development, retention, and expansion, the County Master Plan, zoning, transportation, education, public safety, and legislation.
